

Neighborhood Dance Studio Celebrates 1 Year Anniversary

Star Dance Center continues to grow, adding new classes, new programs, and new instructors under success of new management.

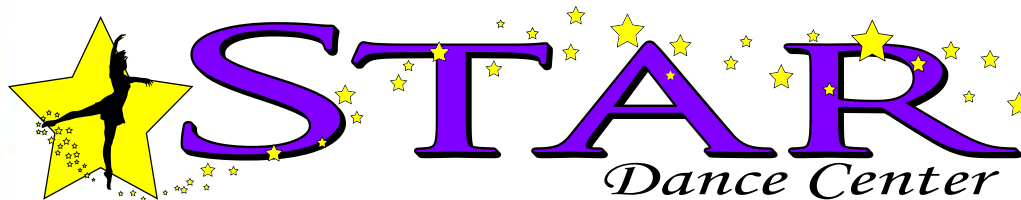

It has been a big year for Joe and Erin Sanfelippo, the new owners of Star Dance Center here in Newhall. Since taking over Star Dance, enrollment has tripled and business is continuing to expand. "We have been overwhelmed by how quickly we have grown and how loyal our families are after only one year."

Although new to the Santa Clarita Valley, they are not new to teaching and the performing arts. Both professional performers with TV and stage credits, Joe and Erin jumped at the opportunity to take over Star Dance and move to Santa Clarita to enjoy the family friendly lifestyle.

They have brought many new programs to Star Dance Center including musical theater, tumbling hula, cheer, pop singing, piano and voice lessons, princess ballet and boys breakdancing. Their birthday parties have received rave reviews and their award winning dance teams continue to improve and impress. "Our mission is to strike a balance between fun and excellence while giving children a lifelong appreciation for the arts", says owner Erin Sanfelippo. "Our staff has been so supportive and they continue to build students self-esteem while giving them excellent instruction. It is because of them that we have grown so much and as long as the kids are here having fun, we'll be here to teach them."
