Days of Danger: The Coming of Uncertainty

The nation's economic downturn presents a Depression for Decatur and Central Illinois. The chilling winds of job loss and paycheck loss blow our way. Thousands of good-paying manufacturing jobs left our area and went to China. The coming depression threatens more job losses here.

I usually write to you about safety issues. But the impending economic storm compels me to address its danger.

Take Action

I urge you to write Senator Durbin, Congressmen Phil Hare, Tim Johnson and President Obama. Tell them that America must end its stupid trade policy of sending our jobs to China.

After WW II the U.S. grew wealthy based on manufacturing and farming. We must start making stuff in Decatur again. The Wall Street way brings ruin. Let us try the workers' way for a change. Thank you.

Respectfully,

William C. Faber, Jr.

President Obama
